

## Cities and Government Call Accounting Software

### Cities and Government Authorities use CASH+ Call Accounting Software to:

- View Actual Telephone Activity to Manage Employee Productivity
- Monitor All Call Activity to Decrease Misuse and Abuse
- Monitor Trunk Activity to Analyze Line Requirements
- Allocate Telecommunications Costs for Budgeting Purposes
- Provide Emergency and/or Custom Alert Notification

### Features & Benefits:

Government Authorities with structured environments need to enforce strict cost management and allocation measures to adhere to their projected annual budget. With CASH+ Call Accounting Software all telephone activity is logged and long distance costs are efficiently allocated to specific departments.

The need to identify threatening or harassing callers has become an issue for many agencies. Use CASH+ to produce reports that display incoming caller identification allowing you to isolate situations rapidly. Most business phone systems support this feature.

By monitoring Trunk Activity, CASH+ Call Accounting provides useful reports for analyzing present and future line requirements as well as staffing necessities.

Organizations such as State of Maine use our software and find that it has provided them with a valuable solution for their call accounting needs.
