How to...

Increase Room Occupancy

By using the one of a kind “Room Manager” tool, only found within the CASH+ Call accounting software, you can offer your guests any number of free long distance minutes per day included with their stay. Attracting more guests and providing motivation for return visits to your property because of the extra’s they receive when staying with you. Whether you offer free long distance with a standard room or whether you offer the service to VIP or card holder visitors, use your CASH+ Call Accounting “Room Manager” to set your property apart from the others and increase occupancy.

Pass on the Savings with call accounting a property has the power to offer very competitive per minute rates to its guest. With long distance being much less expensive than in years past it makes sense to pass this service onto your guest as well. Unfortunately most guests still assume that hotels do not offer reasonable long distance rates. In the past, hotels would charge very high per minute rates to its guests and therefore today’s travellers still have this pre-conceived belief. This is why most guests do not use hotel phones and continue to use their cell phones. Even with their cell phones higher long distance rates and the extremely high costs for browsing they still believe it is more cost effective for them to use their cell phones.

Advertise Your Services... Be sure to indicate to each guest as they check in that you are different, encourage them to use the phone by announcing to them the free long distance they will receive with the room in addition to the excellent rate you offer them should they exceed their free minutes. Providing clearly marked rate cards in the room will share this message too.

Being able to offer some savings in today’s market will show that you are concerned with your guests overall needs and customer service experience while staying at your hotel. Remember, everyone would prefer to save money than not, especially in the economic times of today.

Set yourself apart from the rest with great services!

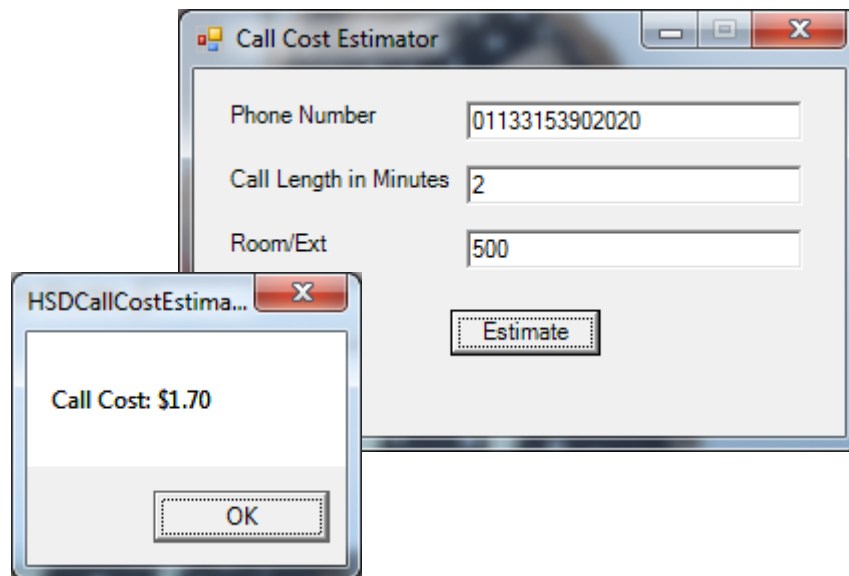

Call Cost Estimator

Hansen Software Corporation is pleased to announce a new feature in CASH+ Call Accounting Software! No more guessing or digging to find out what a call costs!

If a guest wants to know the cost to call a specific number, simply enter the details and the length. By entering a specific phone number the call cost estimator will calculate the per minute rate including any mark up and surcharges set up in the software. From there it can estimate a cost depending on the length of the call.

The guest can now know the cost of a call to eliminate guess work or surprises upon checkout.

Features...

- Installation, Training and Technical Support is Available through our Online Web Support Option
- Emergency Technical Support is Available 24/7!
- Rapid Report Generator
- Automated E-mailing and/or Printing of Scheduled Reports
- TONS of Report Variations Available in many Different Formats (i.e.PDF,Excel,Word)
- Client/Server Network Compatible
- 911/Specific Call Type Alert feature
- No Call Data Collection Alert Notification
- Station Billing Detail for Recurring and Non-Recurring Charges
- Multi-Site Application Available
- Area code & Exchange Table Updates
- Compatible with all Windows Operating Systems Currently Supported by Microsoft
- Data may be Collected via IP, Serial Port, or Database

Why Us...

- Competitive Pricing Tailored to Size of Company
- Exceptional Industry Knowledge
- Fantastic Customer Care & Technical Support
- Remote Installation Assistance
- Remote Setup & Training
- Unlimited Technical Support & Training for the first year
- New features, Software and Area Code Upgrades throughout the Year
- 24/7 Support for Emergencies
- Specialized Online Webinar's to Assist in Your Evaluation Process

The Preferred Call Accounting Solution

www.hansensoftware.com

Software Assurance Coverage is **included** with CASH+ software:

- ✓ We do the software installation
- ✓ Remote Installation Assistance
- ✓ Unlimited User Training
- ✓ 1 year of unlimited technical support

 - New Telephone Systems Additions
 - Microsoft Windows Compatibility Upgrades

We are compatible with all phone systems and have been certified by:

1.877.795.2274

The Preferred Call Accounting Solution

Hardware Requirements for CASH+

SYSTEM REQUIREMENTS

- Telephone System must have SMDR Interface outputting via RS232 or TCP/IP
- CPU Processor – 1.0GHz or better
- CD ROM
- Minimum of 1 GB RAM
- Serial Port dedicated for CASH+*
- High Speed Internet Access for technical support
- Minimum 10GB of free hard disk space**
- Windows 2003 Server, 2008 Server, XP, Vista, Windows 7 (32 bit & 64 bit) or Windows Small Business Server 2011

In many cases CASH+ can run as a service which allows the host computer to be logged off. In other cases it runs as an application. Please call for more details.

CASH+ DOES NOT REQUIRE A DEDICATED COMPUTER

* Only required to collect SMDR/CDR data via RS232 connection; not required if collecting via TCP/IP. A second serial port is required for clients exporting calls to Serial PM Systems.

** Requirement may vary depending on number of extensions and call volume.

Telephone Collection Alert

This feature allows users to be notified by email when no calls have been collected for a period of 24 hours. Quick detection will minimize the amount of calls lost and lessen the overall impact by quick rectification of the issue. You may set this alert to include as many email addresses as needed.

Phone Number Alerts (Call Alerts)

Set any telephone number as a Call Alert. Emergency 911 calls often most important. Other options may include, 411 / 555-1212 alerts, International Calls, Operator Assisted Calls, or any specific phone number of interest.

CASH+

CALL MANAGEMENT

CASH+ Call Accounting is one of the most widely-used call accounting systems in the hospitality industry. This is due to its innovative features, easy-to-use Windows interface and unparalleled tools for reporting, billing and tracking administrative and guest phone calls. **Best-Net Services**, supplier of goods and services to all Best Western in Canada and the USA, has chosen CASH+ as the preferred solution for their properties.

We include, at no extra charge, the interface to all of the most popular Property Management Systems available on the market to date. In addition, the purchase of the software includes online installation assistance as well as the first year of our Software Assurance Coverage. Receive throughout the year 24/7 unlimited technical support, training, and software and area code updates.

Features Include...

- 911 Call Alert
- Wake Up Call Report
- Night Audit Report
- Call Cost Estimator
- Recurring/Non-Recurring Charges for Monthly Billing
- Ability to Allow Free Calls to Specific Rooms for Promotional Purposes
- Telephone system Data Collection and Call Alerts
- Multi-Rate Departmental Charges
- Built-In Checkout Feature (if not using a PM System)
- Flexible and Detailed Reporting for Monitoring your Administrative Extensions
- Property Management Interfaces

Hardware Specs...

IBM Compatible Personal Computer with:

- Microsoft Windows 2000, XP, Vista & Windows 2003 Server
- CD ROM and Minimum 512 MB RAM
- 1 COM Port Dedicated for SMDR (unless collecting TCP/IP)
- 1 COM Port for PM System (serial interface)
- Remote Internet Access for Technical Support
