

CASH+

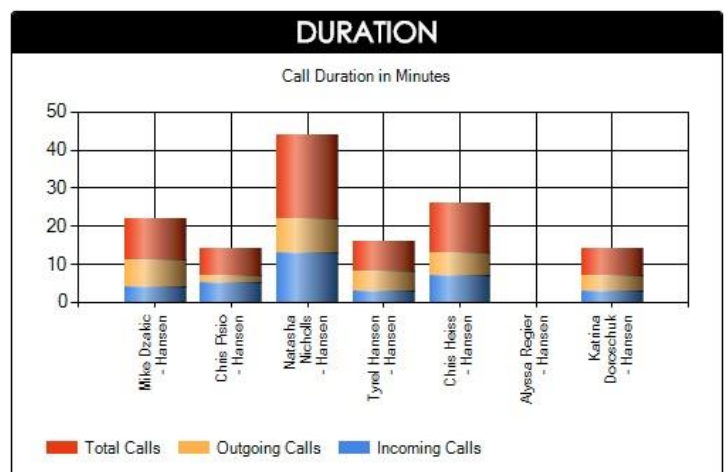

DASHBOARD

CASH+ Call Accounting is a unique, state of the art, cost recovery and call accounting software system. CASH+ automatically logs all telephone transactions and with hundreds of reports available, the user can easily track down whichever call details interest them. Incorporated into our CASH+ Call Accounting software is the CASH+ Dashboard. This Dashboard is a live, dynamic status display. The diverse functionality of the software makes it an appealing solution for many industries.

Alerts notify you if any predefined alert is triggered. Options include alerting for telephone numbers being dialled or received (such as 911), calls over specified duration and no call data being collected into the software.

Graphs can be manipulated to show any combination of incoming, outgoing or total call volumes. A number of graph options are available, such as bar charts, column charts, or pie charts. Graphs can also be viewed in 2D or 3D.

The Ticker Tape displays individual calls as they happen. You can have this include as much or as little detail as you wish. You may include specific stations or depts. to be displayed.
